17-06-2024 (last)

- list of module
→ Simple - wrappers
  - PySimple Gui

↗ General Desktop Application.
  - Tkinter   - Kivy
  - Pyqt   - PyGTK
  - PySide   - wr python
  - Dear PyGuI

→ Specilised Application/Framework
  - Libaug - Pyforms - Toga
  - Enami

→ web based GUI's
  - Flask / Django
  - Remi
  - Flexx

→ Games and Multimedia
  - Pygame   - Pyglet

- Aim of the project
1→ simple wrapper and General Desktop Application. and specilised Application /framework.
- make a simple login -signup GUI. ~~API~~
- It should be/not be working
- should be same in All the module (Try to)

2→ web based.
- make a survay Form which will have basic Question & feedback box.
- only make it functional.

3→ Games and multimedia
- make a normal zero/cross. gane which could be playable at least.
